My advice to law firms that are yet to engage with review platforms - look for the most reliable space that can represent you. Clients spend so much time doing their research, they will go to ReviewSolicitors to seek the validation that your firm can be trusted. Reviews are the best way of providing that kind of reassurance.

It was really important to us to engage with an organisation with a secure and automated process for collecting reviews. It's easy for them to access the system and to leave a review... It was a no-brainer from that perspective.

Once we set up the individual solicitor profiles, we connected their LinkedIn pages to post the reviews that personally mention them, encouraging them to get on board. This encourages us to send out more review requests and interact with the platform.

We have used the platform for over 6 years, and our experience has been excellent. The platform is easy to navigate, and our solicitors find it efficient to request client reviews. It provides clients with a simple way of rating our service, rather than using Google reviews which requires a Gmail account. The platform has provided valuable insight into client views, and we'd recommend ReviewSolicitors to any legal firm looking to improve services and client experience.

Personal Injury

Exceeded my expectations, very happy with outcome of my PI Case.

My claim started in the 'Small Claims Team' and was escalated to Multi-track. Initially I chose S&G to represent me because of the law firm's well-known name, good reputation, and positive reviews.

I must say, the Multi-track solicitors exceeded my expectations. The professionalism, honesty, timely-responses and case management was exceptional. It was very clear to me that this is a law firm with thorough legal knowledge and experience. I recommend S&G and would definitely return if I required their services again.

We chose ReviewSolicitors over other competitors, simply because it was sector-specific, with really well-formatted questionnaires. ReviewSolicitors helps us to showcase our firm both regionally and nationally, which is a really helpful benchmarking process.

The website widget helps instill trust in new clients by showing that people trust us, and that they would use us again. It's a cost-effective platform with worthwhile investment versus the return. Any four or five star review automatically goes out via X (Twitter). It gives you credibility as a firm that clients can view the real tangible results of previous service.

We have an excellent account manager who looks after us very well, answering all kinds of queries and providing new features.

We received nothing short of an exceptional service. Given the logistical problem of being in another country, dealing with a tenant who refused to move out made the problem even more difficult. Thanks to Mullins & Peake and their staff, we were able to remove the tenant within 3 months of them coming on board. Previously we had spent 7 months trying to remove the tenants and got nowhere. I thoroughly recommend their services and would have no hesitation in recommending them.
